Aviation Psychology and Applied Human Factors

2019

Official Organ of the European Association for Aviation Psychology (EAAP) and the Australian Aviation Psychology Association (AAvPA)

Aviation Psychology and Applied Human Factors publishes innovative, original, high-quality applied research covering all aspects of the aerospace domain. In order to make the journal accessible to both practitioners and scientific researchers, the contents are broadly divided into original scientific research articles and papers for practitioners.

The fully peer-reviewed Original Articles cover a variety of methodological approaches, ranging from experimental surveys to ethnographic and observational research, from those psychological and human factors disciplines relevant to the field, including social psychology, cognitive psychology, and ergonomics. High-quality critical review articles

and meta-analyses cover particulars topic of current scientific interest. Shorter studies are published as Research Notes.

APAHF in Practice consists of less technically written, but still fully peer-reviewed articles covering a wide range of topics, such as comments on incidents and accidents, innovative applications of aviation psychology, and reviews of best practices in industry.

Finally, the journal's News and Announcements section features past and upcoming events around the world, association news, interviews, and similar.
